## HOTECH: Your Partner for Cutting-Edge Recycling Solutions

Since 2001, HOTECH has been at the forefront of designing and constructing recycling systems and equipment for the recycling industry. Our commitment to innovation and sustainability drives us to create state-of-the-art, turn-key solutions for material recovery systems.

By supporting the CDS in Australia, we contribute to cleaner streams of recycling, reduced litter, and a greener future. Trust in our expertise and join the movement toward sustainable solutions.

When you need a reliable partner, talk to us first—we're here to help you make a positive impact.

# Fully Automatic Baler With Hopper ZYB-150T

Let's delve into its remarkable features:

1. **Hydraulic Precision** : Our machine utilizes hydraulic drive, PLC, and HMI technology, ensuring precise control. Whether in manual or automatic mode, delivers consistent performance.
2. **Stability and Safety** : Say goodbye to vibrations and safety concerns. The ZYB-150T operates smoothly, minimizing risks and maximizing productivity.
3. **Eco-Friendly Design** : We care about the environment. Our equipment minimizes waste and promotes sustainable practices.
4. **Baling Excellence** : The large-capacity conveyor collects scattered paper, feeding it into the baling chamber. There, our powerful hydraulic shuttle and distributed blades create tightly baled paper to your exact specifications.
5. **Secure Bundling** : Automatic pressure distribution and a 3-direction movable tightening device ensure secure bales. Adjust the length as needed for cost-effective transportation and storage.
6. **High-Speed Performance** : Ten times faster than traditional manual balers, our machine handles large wastepaper sites effortlessly.
7. **Support CDS Sheme** : Our balers wholeheartedly embrace the Container Deposit Scheme (CDS) in Australia.

# Fully Automatic Baler With Hopper ZYB-150T

## Features

1. Input Size : L2000 x W1050 x H1200mm
2. Output Size : L (free) x W1100 x H1200mm
3. Overall Dimension : L13175 x W4214 x H2836mm
4. Oil Tank Size : L1800 x W1200 x H1000mm(2160L \*80%)
5. 5-pair wire
6. Independent Air-Cooling System
7. Bale exit is RIGHT hand side when look in front of conveyor

## Components

1. Hydraulic Pump (USA) : High-performance pump for robust press force
2. Motors (China) : Efficient, energy-saving motors
3. Seal Kit (Japan) : Leak-free operation, minimal maintenance
4. Bearing (Germany) : Smooth movement, durability
5. Hoses (Italy) : Flexible, high-pressure fluid dynamics
6. PLC Control System (Japan) : Intuitive automation customization
7. Sensor (Korea) : Real-time monitoring, enhanced safety
8. Pressure Transducer (Canada) : Accurate pressure measurements
